

Here's the pentatonic scale in guitar tablature

Example 1

The image displays the pentatonic scale in 4/4 time, presented in both musical notation and guitar tablature. The musical notation is on a treble clef staff, showing the scale ascending and then descending. The guitar tablature consists of three staves labeled T (Treble), A (A), and B (Bass). The fret numbers are as follows:

Staff	Measure 1	Measure 2	Measure 3
T		5 8 5	
A	5 7	8 5	5 7 5
B	5 8	5 7	7 5 8 5

Your goal for this lesson on the pentatonic scale is simply to memorize the pentatonic scale. As with all things in music, go slowly. Use a metronome when you practice and get plenty of repetitions.

If you were to play the pentatonic scale 20 times a day, 5 days a week for one month, that would be 400 repetitions in a month. It doesn't take a lot of time to do this, and it's this kind of practice that will help you learn guitar in the shortest time possible. Do the repetitions and I promise it will be worth it. When you start to get command over the tools of music like the pentatonic scale, your enjoyment of playing will increase many times over.
